

A Parent/Carer's Guide to activehub.com

A guide to helping your child with his German/Spanish home learning.

1. What is activehub.com?

Activehub is designed to provide a bank of materials at both foundation and higher tier. Tasks allocated by your son's teacher are targeted at different skill areas such as listening, reading, writing, or grammar and vocabulary practice.

2. How we use it in school and at home to create expert linguists.

1. Log in: Your son will need to log on to www.activehub.com

2. Start by using his school email to log on: once activated your son will receive an email from noreply@notifications.pearson.co.uk and he will be assigned a temporary password which he should change once logged in.

Welcome to ActiveHub

Hello [REDACTED]

You now have access to ActiveHub, your new learning platform.

To log in, please click on 'Get Started' below and enter your username and temporary password. After a successful log in, you will be asked to change your password.

Username: [REDACTED]

Temporary Password: [REDACTED]

Get started

3. Complete the assignment: sometimes there will be multiple parts to a task and it is important that all parts are completed.
