

eRevision Login

You will have received an email from your teacher that looks like the email above. This is to set your own password.

Go to erevision.uk and enter your school email address and password you have created. Then click sign in.

This is a close-up of the 'Sign in with eRevision password' section of the login page. It features two yellow input fields: one for 'Email' and one for 'Password'. The 'Password' field has a small information icon (i) to its right. Below the fields are two buttons: a blue 'Sign in' button and a blue 'Forgotten your password?' link.

If you have forgotten your password (or have deleted the original email) then select forgotten password and enter your school email address where a new link will be sent to your school email address.
