

A GUIDE TO YOUR SON'S GRADES AT WEST HILL SCHOOL

Projection

Based on his current attainment, a projected grade for the end of Y11 is given for each of his subjects. This projection is calculated in school, based on the past performance of boys at West Hill.

Aspirational Target

To help you measure how well your son is doing, he is set an aspirational target. These targets are set at a high level to match the high expectations we have for the boys.

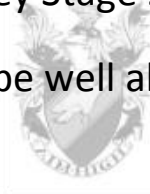

Your son may find he is below target in some subjects and he needs to work hard to make the gap between his projection and target as small as possible.

National Benchmark

The benchmark is a grade given for each subject that shows the national average exam results for boys who had the same Key Stage 2 scores as your son.

Your son is expected to aim high and work hard to be well above this benchmark.

A GUIDE TO YOUR SON'S GRADES AT WEST HILL SCHOOL

National reporting of grades

Your son will receive a number grade for each of his subjects. For numbered grades, 9 is the highest. To see if your son is on track to get good passes in his subjects, please look at the **Projection** compared to the **Aspirational Target**.
